

WANT A FREE TEACHER PD WORKSHOP TAILORED TO YOUR KLA GROUP AND DELIVERED TO YOU IN-SCHOOL?

We are offering 60-90 minute teacher PD workshops that bring your curriculum to life using the real world of agricultural work.

Are you a primary or secondary school teacher looking for new ideas on how to:

Implement real world technology and data management systems in your classroom?

Improve the literacy, numeracy and digital skills of your students with an engaging, experiential series of activities?

Integrate cross-curriculum priorities and career development into your lessons?

We will work with your KLA team or group of teachers at your school to identify the useful application of food and fibre concepts including:

- Introducing locally relevant resources
- Offering tips and strategies for integration into your classroom
- Connecting you to industry partners to bring the world of agricultural work to your students

To book a free RACE Gippsland Teacher PD workshop at a time and location that suits you, please contact us on ageducation@cqu.edu.au
